

MORAY EAST WEEKLY NOTICE OF OPERATIONS	Issue Date	04/05/2020
	Ref: 8460001-PC0010-MWE-REP-0061	Rev: 01

Work Planned for the Period 04.05.2020 to 10.05.2020

Construction work for Moray East Offshore Wind Farm commenced on the 18th May 2019.

The key aim of the Weekly Notice of Operations is to give a global view of activities and vessels involved. Questions regarding the operations will be welcome preferably well in advance of each construction activity.

Moray East is developing the Moray East Offshore Wind Farm in the Outer Moray Firth on the south eastern area of the Smith Bank located to the north of the Aberdeenshire and Moray coast. The development will consist of 100 offshore wind turbines (WTGs) (with a total capacity of approximately 950 MW) and three Offshore Substation Platforms (OSPs). Water depths in the Moray East site range from approximately 38 m below LAT to 54 m below LAT. The generated power will be transmitted to the grid via three subsea export cable circuits to the landfall location at Inverboyndie bay on the Aberdeenshire coast. The onshore export cables continue underground to the Moray East substation currently under construction near New Deer. The Moray East offshore development boundary is shown in black on Figure 1 below. Details of location of work activities within this area will be provided as work progresses.

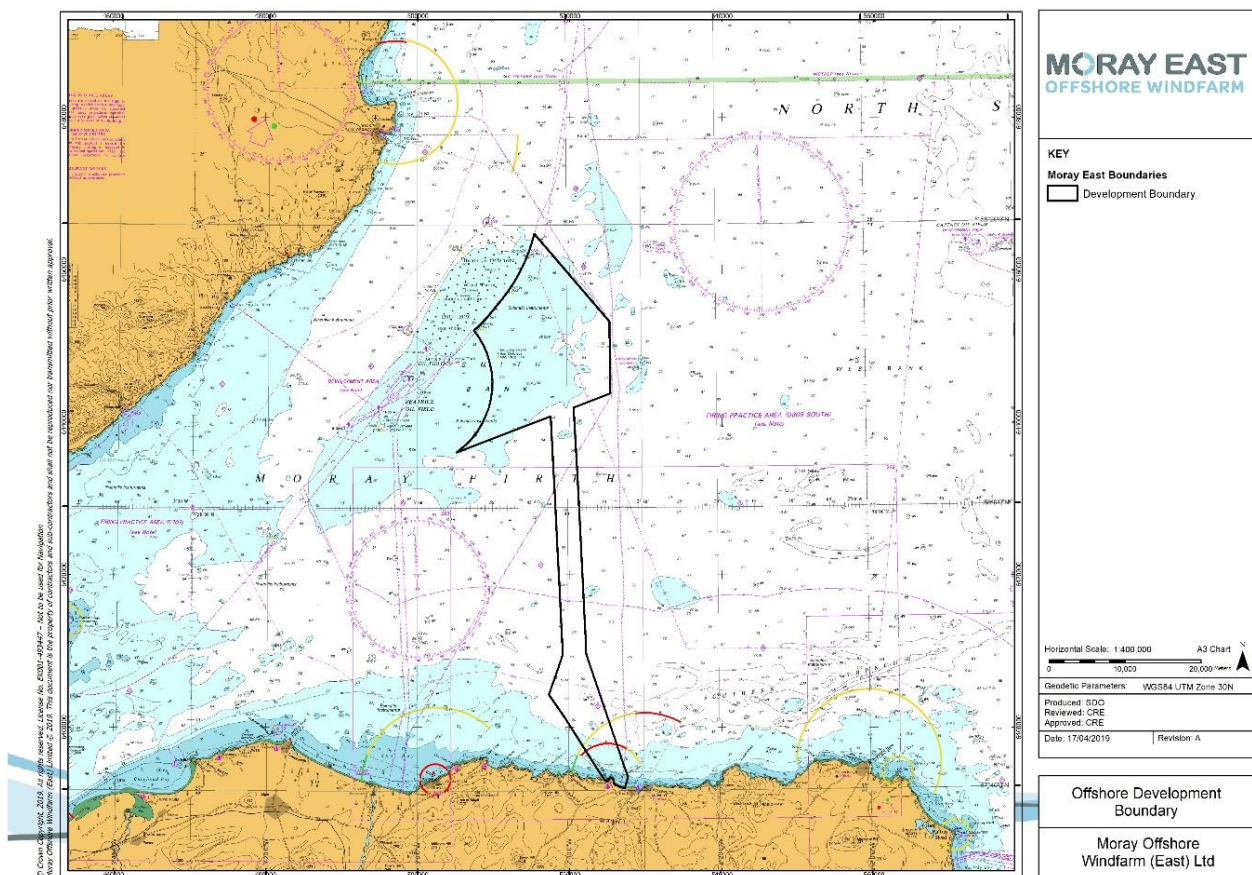

Figure 1 - Moray East Offshore Development Boundary

MORAY EAST WEEKLY NOTICE OF OPERATIONS	Issue Date	04/05/2020
	Ref: 8460001-PC0010-MWE-REP-0061	Rev: 01

It is currently anticipated that weather permitting offshore construction works will be carried out year-round and on a continuous basis (i.e. 24 hour working, seven days a week) unless notified otherwise.

Moray East's Marine Coordination Centre in Fraserburgh is manned 24 hours, 7 days per week.

The construction works, which have commenced from the 18th May 2019, are as follows:

- Soil plug removal operations from completed piles (detailed in this notice);
- Guard vessel duties (detailed in this notice);
- Boulder clearance works on the export cable route (detailed in this notice); and
- Scour protection deployment

1 Contact Details for Marine Coordination

The following contact can provide more information if required. Please note that specific queries can also be addressed to the relevant vessel or shore based representative.

Telephone Number (Day Operations)	+44 (0) 778 706 5714
Emergency Contact (24/7)	+44 (0) 1346 511 838
Marine Coordinator Email	MarineCoordination.MORAYEAST@Morayeast.com
Address	Dalrymple Hall, Dalrymple St, Fraserburgh, AB43 9BD

2 Completed Operations

2.1 Moray East Construction Markers

Moray East has completed the deployment of nine construction marker buoys around the Moray East site. The marker buoys will remain in place until after construction of the Moray East Offshore Wind Farm is complete. The co-ordinates for the as-built marker buoys are provided in the Table 1 below.

Table 1 – Marker buoy locations

Name	WGS84		WGS84 UTM Zone 30N	
	Latitude (dms)	Longitude (dms)	Easting (m)	Northing (m)
Buoy 1 - North Cardinal Buoy, Pillar shaped with a north cardinal shaped top mark, exhibiting a Quick (Q) White (W) light character and AIS.	58° 18' 6.600" N	2° 41' 4.800" W	518481.96	6462358.27
Buoy 2 - Special Mark Buoy, Pillar shaped with a yellow 'x' shaped top mark, exhibiting a Fl Y 5s light character.	58° 16' 48.300" N	2° 37' 55.380" W	521579.08	6459952.33

3 Piling Operations

GeoSea NV Geotechnical & Offshore Solutions have been contracted by Moray East to carry out pile foundation installation at the Moray East site. The vessels associated with the planned works are detailed in Section 3.1 below.

The piling operations commenced on the 19th May 2019 and were completed on 27th February 2020. Information on the WTG and OSP foundation locations in the Moray East site are provided in Sections 3.2 and 3.4 below.

The Data/positions for the installed piles are available for the following Electronic chart Plotters:

- Maxsea
- Sodena
- Olex
- Time Zero

The information is made available by contacting John Watt (Brown and May)

John.watt@brownmay.com 07590880746

Figure 3 – Turbine location and Installation Status

3.3 Piling Operations – Complete

Installation of all piles was completed on 27/02/2020.

3.4 Soil Plug Removal works

The HLV Apollo will re-visit the previously piled locations to carry out soil plug removal upon completion of the piling campaign. The Apollo will position, jack-up (within the same footprint as during piling operations) and remove the build-up of soil inside the piles in readiness for jacket installation. The Apollo will use a mechanical grab, air lift tool and drill to remove the soil build up to the required depth for grout adhesion during the jacket installation campaign. The coordinates for the area where the soil plug removal are expected for the month ahead will be updated on a weekly basis, once a sequence has been established after the completion of piling and demob of the Apollo in readiness for the Soil plug removal. The initial locations will be within the construction area shown in Figure 4 below.

3.5 Soil plug removal works for the month ahead

Pile driving works have been completed and will be followed by soil plug removal as described below, in the area highlighted in yellow in Figure 4 below. Construction works could take place out of this area due to unforeseen circumstances.

Table 3 – Coordinates for soil plug removal activity area up and coming scour protection campaign expected for between 04th May and 01st June 2020

Id	Latitude (DMS)	Longitude (DMS)	Latitude (DM)	Longitude (DM)
1	58° 6' 1.723" N	2° 45' 43.506" W	58° 6.029' N	2° 45.725' W
2	58° 6' 5.520" N	2° 49' 36.186" W	58° 6.092' N	2° 49.603' W
3	58° 10' 35.645" N	2° 48' 33.549" W	58° 10.594' N	2° 48.559' W
4	58° 16' 17.912" N	2° 42' 16.296" W	58° 16.299' N	2° 42.272' W
5	58° 16' 17.498" N	2° 38' 5.426" W	58° 16.292' N	2° 38.090' W
6	58° 11' 45.109" N	2° 34' 14.542" W	58° 11.752' N	2° 34.242' W
7	58° 8' 49.743" N	2° 34' 11.733" W	58° 8.829' N	2° 34.196' W

The above figure and coordinates for the area where soil plug removal works are expected in the month ahead will be updated on a weekly basis through the Weekly Notice of Operations together with an update on the planned soil plug removal operations.

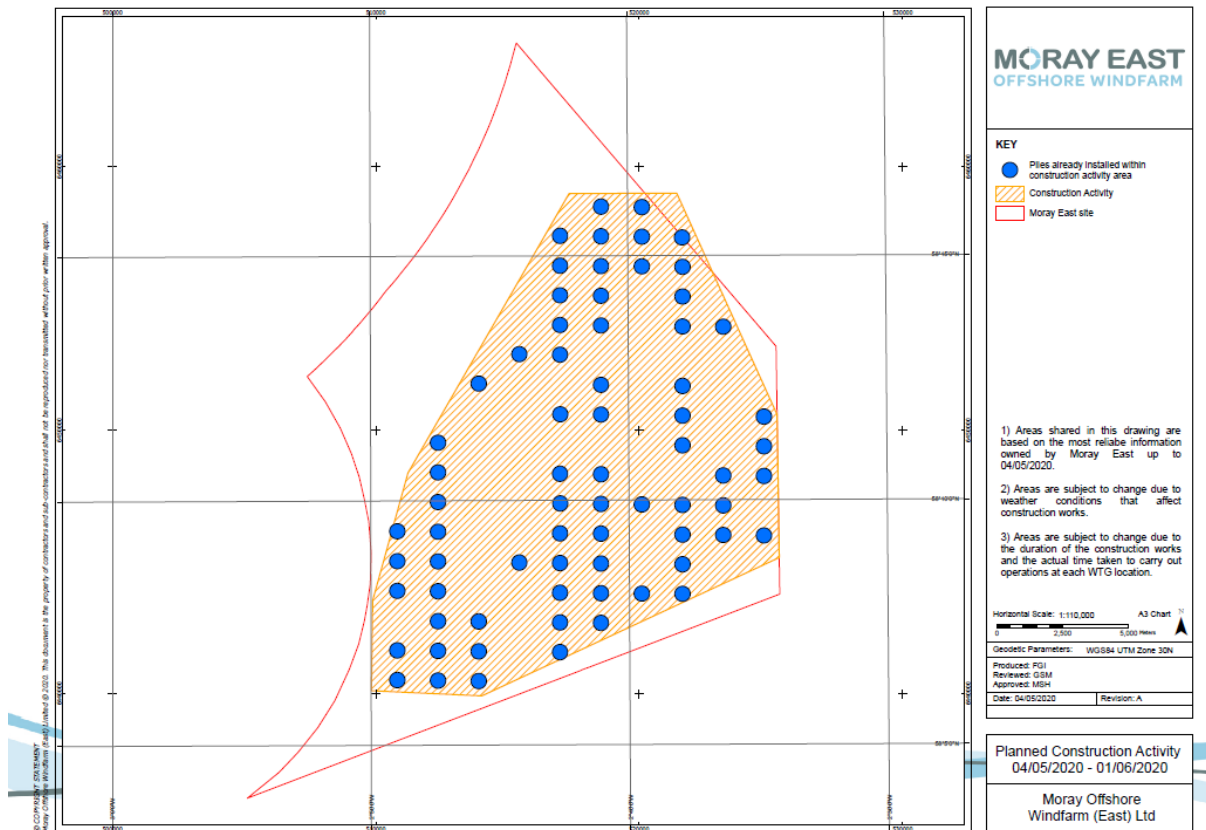

Figure 4 – Soil plug removal activity and up and coming scour protection campaign area expected for between 04th May and 01st June

The latitude and longitude for the soil plug removal activities in the above highlighted area is referenced in the Table 3 on page 10.

4 Guard Vessels

Kinnaird Marine Limited has been appointed by Moray East to provide guard vessels during the soil plug removal campaign. Apart from times of extreme weather, there will always be at least one guard vessel on station during soil plug removal operations. The guard vessel's primary duty is security of the construction site by informing and warning non-construction vessels of the ongoing activities and associated Safety Zones.

Mariners are requested to navigate with caution and keep continued watch on VHF Ch. 16, 87 and 73 when navigating the area.

6 General Safety Advice

Please be aware that by virtue of their mode of operation and the equipment deployed the MV Apollo, Havila Venus and Flintstone will be Restricted in their Ability to Manoeuvre (RAM) as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972, Rule 3). Masters of vessels are therefore requested to maintain their vessels and gears at a minimum safe distance from these vessels of 500 metres when it is undertaking its work and showing the appropriate shapes and lights in accordance with COLREGs Rule 18.

In order to not compromise the safety of the MV Apollo, Flintstone and the Havila Venus, the crew of each, and each vessel's ability to undertake its contracted works, fishermen who have static fishing gears deployed within the defined Moray East site (see Figure 2) are requested to provide the coordinates of such deployed gears in DMS and details of whether the surface markers used are visible at all states of visibility to Alex Winrow-Griffin (Brown & May Marine) using the contact information in the Fisheries Liaison section below (Section 58 of the Merchant Shipping Act 1995).

Fishermen who have static gears deployed beyond 12 nm are reminded that static gear must be marked in accordance with Commission Implementing Regulation (EU) No. 404/2011 (<https://www.gov.uk/guidance/markings-of-fishing-gear-retrieval-and-notification-of-lost-gear#marking-of-fishing-gear>).

The Scottish Ministers have authorised the use of the following safety zones as per Notice to Mariners to follow:

1. A 500 metre radius around each WTG and OSP where construction works are taking place that include sensitive activities being undertaken by vessels RAM. A maximum of three of such zones is permitted at any one time.
2. A 50 metre radius around partially completed WTGs and OSPs where work is not underway and the risk assessments identify a need.
3. A 50 metre radius around each completed WTG and OSP prior to commissioning and as required by a risk assessment process.

All mariners are requested to give all construction and support vessels a wide berth.

Mariners are requested to navigate with caution, to use all means appropriate to aid safe navigation as defined under COLREGs Rule 7, and keep continued watch on VHF Ch. 16, 87 and 73 when navigating the area.

7 Meteorological Mast Unlit

Please be advised that Moray Offshore Windfarm (East) Limited (Moray East) Meteorological Mast (Figure 6 and 7, Table 5) the aviation light is still currently not operating.

8. Scour Protection Operations.

Please be advised that Moray Offshore Windfarm (East) Limited (Moray East) are planning to commence scour protection operations in preparation for forthcoming Jacket installation work scope at five locations within the bounds of Moray East Offshore Windfarm circa 30th April 2020. The locations of each of the five assets where scour protection will be installed is shown in Figure 2 and Table 6 below.

Location	Latitude (DMS)	Longitude (DMS)	Latitude (DM)	Longitude (DM)
ME-C04	58° 6' 21.170" N	2° 48' 59.362" W	58° 6.353' N	2° 48.989' W
ME-E04	58° 6' 19.742" N	2° 45' 50.384" W	58° 6.329' N	2° 45.840' W
ME-OSP1	58° 7' 32.733" N	2° 45' 49.807" W	58° 7.546' N	2° 45.830' W
ME-OSP2	58° 13' 0.415" N	2° 44' 12.807" W	58° 13.007' N	2° 44.213' W
ME-OSP3	58° 9' 55.656" N	2° 39' 30.088" W	58° 9.928' N	2° 39.501' W

Table 6.

The work will comprise of rock dumping from the Flintstone via fall pipe, area covered on each of the five asset locations is shown in Figure 9 below.

10 Boulder Clearance

Please be advised that Moray Offshore Windfarm (East) Limited (Moray East) commenced boulder clearance operations in preparation for forthcoming cable lay and trenching work scopes on the Offshore Export Cable (OEC) routes on 26 April 2020 with an expected duration of circa 21 days.

The work comprise boulder clearance operations using the OISL RP15 boulder clearance system (Figure 12) towed from the AHTS Havila Venus to create a 20m wide lay corridor in areas where boulder accumulations exist on the seabed followed by pre and post lay surveys conducted by the ROV.

11 Fisheries Liaison

Fisheries liaison associated with the activity will be co-ordinated by Brown and May Marine. For any commercial fishery queries please contact:

Alex Winrow-Giffin - Brown and May Marine Ltd.

Email: alex@brownmay.com

Tel: +44 1379 872148 / + 44 7760 160039

Fisheries liaison support is also available through the Fisheries Liaison Officer onboard of the MV Apollo and the Havila Venus. Contacts provided below:

Name: Zander West (Apollo)

Email: Zander.West@btinternet.com

Mobile: +44 7989 808130
